

## Fresh Produce Area – 7-11

*Installation of SSLI ELR100GL-WFL- 24W LED down lighters in the Retail area*

### 40% ENERGY SAVINGS

#### Details:

Replacement in the project design of **Metal Halide 70w** downlights with **SSLI ELRGL-WFL 24w LED down light**

Easily installed into the current bulk head structure. LED lamps are tilt able, allowing easy in store positioning of light by retailer

4500k Colour temperature, also available in 3000k & 6000K

Light levels increased to > 1100 lux on Fresh produce display area.

Total Saving over the life of one LED-24w as specified R 2950.00 per lamp

**3 year warranty** on the LEDs supplied.

#### Benefits:

**Large energy savings:** Instant 40% energy savings

**Reduced Maintenance costs:** the lamp life increases from 8000 hrs to 50 000hrs resulting in reduced disturbances to high profile area. Total savings over life of LEDs exceeds R14 740.00 per store

**Low heat production:** Low heat emissions help to reduce air conditioning consumption

**Cool to touch:** Easy to position the LED's when on, thus reducing spoilage of fresh product on display- helps extends shelf life

**CO<sup>2</sup> Emissions savings:** Reduced CO<sup>2</sup> emissions by approximately 0.25 tonnes per store, per year

**3 year payback / 40% reduction in power / 0.25 tonnes annual CO<sup>2</sup> savings equiv**
