84% ENERGY SAVINGS

Details:

Replacement with a “Plug & Play” retrofit project of **E27 60w CFL A60 and E27 40W CFL Candle lamps with LED 8w E27 A60 replacement and 3w E27/E14 FR 230V Dimmable Master LED Lamps** into existing Chandeliers and restaurant sconce fittings

2700k CCT temperature used. Also available in a Clear finish, as well as in, an E27 and Golf ball type. All lamps dimmable for ambience setting

Light (Lux) levels were not compromised when replacing CFL lamps used in this Restaurant/Bar decorative feature.

Benefits:

Large energy savings: Instant 84% energy savings

Reduced Maintenance costs: the lamp life increases from 2000 hrs to 45 000hrs resulting in reduced disturbances to high traffic retail area.

Low heat production: Low heat emissions help to reduce air conditioning consumption

CO² Emissions: Reduced CO² emissions by approximately 3.0 tonnes per year from the Restaurant

<14 month payback / 84% reduction in power/ 3,0 tonnes annual CO² savings equiv
